EXPERIENCE

Family Entertainment Group LLC - Itasca, IL — IT Intern

June 2025 - July 2025

- Managed and configured devices using Atera (RMM), including asset auditing and system tracking
- Diagnosed and resolved system issues by identifying root causes and implementing repeatable solutions
- Developed and tested PowerShell scripts to automate configurations
- Reconfigured a test lab environment to simulate real-world network and hardware setups
- Deployed and validated IDRAC for remote server monitoring and management
- Documented technical procedures and troubleshooting steps for internal use

In the Game Hollywood Park - Crestwood, IL — Arcade Associate

September 2020 - Present

- Troubleshoot and resolved minor technical issues with arcade machines to maintain functionality
- Assisted customers with game usage, payments, and general inquiries to ensure positive experiences
- Handled high-volume customer interactions while maintaining professionalism and efficiency
- Collaborated with team members to ensure smooth daily operations and quick issue resolution

PROJECTS

Loot — Full-stack web application that integrates external financial accounts, enabling transaction tracking, balance management, and category-based spending analytics

Technologies used: Node.js, MySQL, Chart.js, HTML, CSS, Javascript

- Built backend APIs to handle user authentication and financial data processing
- Designed and implemented relational database schema for storing account information and transactions
- Developed features such as transaction tracking, category-based spending analysis, and transaction alerts
- Integrated dynamic data visualization to display spending insights
